

# Implementing Artificial Intelligence for Emotion Detection

**Isadora Ferrão**

Cybersecurity and PhD Attend

**@isadora.ferrao**

# Hey, I'm Isa =)

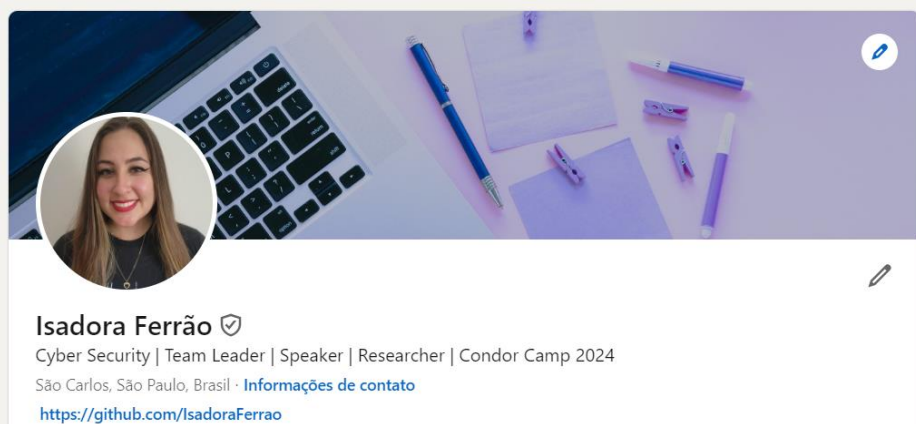

PhD student in Computer Science and  
Computational Mathematics at  
University of São Paulo

isadora.ferrao

Isadora Garcia Ferrão

# Implementing Artificial Intelligence for Emotion Detection

NO: ONE PERSON  
GENDER: FEMALE  
AGE GROUP: YOUNG WOMEN  
ETHNICITY: CAUCASIAN  
HUMAN BODY PART: HUMAN FACE  
TIME: 331 S  
DETECTION: 25621 POINTS

# Banking decisions

# Objectives

## Implementing Artificial Intelligence for Emotion Detection

# Technical abilities

- Programming logic
- Python
- Neural networks (desirable)

## What will we learn :)

- Recognition of emotion in an image;
- Introduction to convolutional neural networks;
- Emotion recognition with TensorFlow 2.0;
- Database: Fer2 -> + 30,000 images and 7 classes)
- Tests

Hands On!

“Talking is easy.  
Show me the code!”

*Linus Torvalds*

# Convolutional neural networks
